

Position Overview

Machining operator

CIF Métal Ltée stands as a North American leader in permanent aluminum casting. With two facilities situated in Thetford Mines and a workforce exceeding 160 employees, the company is recognized for its esteemed global clientele.

CIF Métal Ltée is undergoing consistent and rapid expansion, providing a highly dynamic work environment. With ambitious growth challenges on the horizon, we are in search of a candidate to assume the role of machining operator.

Reporting to the Finishing, Machining, and Shipping Supervisor, you will have the opportunity to excel in a dynamic role and contribute to the company's success through the following responsibilities:

- To provide CNC machines for executing repetitive machining operations, including turning, milling, drilling, and more.
- Oversee CNC machines throughout the parts machining process.
- Verify compliance and conduct a visual inspection of the components for the dimensions of holes and other cutouts in accordance with the specified tolerances.
- Complete the aluminum components in accordance with the specified quality standards.
- Utilize pneumatic tools to eliminate excess material from the components.
- Utilize the apparatus with the suitable tools.
- Organize your workstation.
- Document information pertaining to work orders and production reports.
- Comply with the organization's health and safety regulations.

Requirements

- Acute observation skills, precision, and attentiveness to detail
- Excellent manual dexterity
- Strong learning aptitude

The benefits of employment at CIF Métal:

- A comprehensive array of employee benefits, including group insurance and a retirement savings plan with employer contributions;
- Collaborative and team-focused work environment;
- The availability of management members, who consistently demonstrate attentiveness and receptiveness to employee suggestions;
- Social engagements, training sessions, and various other activities.
