

## Position Overview

# Mold Assembly Technician

CIF Métal Ltée stands as a North American leader in permanent aluminum casting. With two facilities situated in Thetford Mines and a workforce exceeding 160 employees, the company is recognized for its esteemed global clientele.

CIF Métal Ltée is undergoing consistent and rapid expansion, providing a highly dynamic work environment. In light of the ambitious growth challenges that lie ahead, we are in search of a mold fitter/mechanic to assume the role of Mold Assembly Technician.

Reporting to the Maintenance Supervisor, you will have the opportunity to excel in a dynamic role and contribute to the company's success through the following responsibilities:

- Dismantling the hydraulic presses, specifically the removal of the existing mold.
- Assessing the condition of hydraulic presses, specifically inspecting and evaluating the equipment to identify malfunctions and failures, in accordance with established procedures.
- Prepare the molds (sandblasting, lubrication of the ejector system, etc.). Perform minor repairs on the molds and hydraulic presses, and replace any defective components in the presses or molds.
- Execute the assembly operations in accordance with the plans and diagrams.
- Install, align, disassemble, and relocate hydraulic presses, ejector systems, and molds.
- Operating the forklift to position the presses during the installation, assembly, and maintenance of the machinery.
- Adjust, machine, and prepare the components necessary for assembly.
- Sort the molds following use.
- Sanitize your workstation.
- Document information pertaining to work orders and production reports.
- Uphold the organization's health and safety standards.
